**Objective of the Program:**

To make students understand how to deliver high-quality products iteratively and incrementally, responding quickly to change. To enhance collaboration, transparency, and continuous improvement within teams.

**Outcomes:**

From the expert talk, we understood that Agile and Scrum focus on teamwork, flexibility, and delivering work in small, manageable parts. They learned how important it is to adapt to change, communicate effectively, and continuously improve. These methods help teams work smarter and deliver better results, making them essential in today's fast-moving work environments."

**Feedback:**

The session was highly informative and engaging. The expert explained Agile and Scrum concepts clearly with real-world examples, making it easy to understand their practical use. It was inspiring to learn how these frameworks help teams work efficiently and adapt to changes. Overall, it was a valuable learning experience that gave us a strong foundation in modern project management practices."

**Conclusion:**

The expert session on Agile and Scrum provided valuable insights into modern project management techniques. Students gained a clear understanding of how collaboration, adaptability, and continuous improvement drive successful outcomes. The session not only enhanced our knowledge but also inspired us to apply these principles in future projects and teamwork scenarios.
